Home Coming Of Ousted Men Is Joyous Orgy

Hundreds of Socialists at Station Cheer Assemblymen and Carry Them on Shoulders Through Crowd

Women Try to Kiss Them,

Deposed Legislators Confer With Hillquit; Attack Both Old Parties in Statement

The three ousted Socialist Assembly men, Louis Waldman, Charles Solomon and August Claessens, accompanied by their two colleagues, Samuel A. De Witt and Samuel Orr, who withdrew from the Assembly in protest against the ouster, returned to New York from Albany yesterday.

They were greeted at Grand Central Station with rousing cheers by hundreds of Socialists, headed by Julius Gerber, secretary, and Adolph Germer organizer of the Socialist party in New York City. Delegations of Socialists

York City. Delegations of Socialists from the districts represented by the five Assemblymen gathered at the railroad terminal an hour before the arrival of the train from Albany.

When the Assemblymen alighted from the train the crowd joined in cries of "Long live Socialism." The legislators were seized by enthusiastic partisans and carried through the station upon their shoulders to waiting taxicabs. Before departing the five Assemblymen, with cheering hundreds gathered about them in the street, posed for photographs. For a while the police at the station had trouble in maintaining order. Many persons sought to break through the rope passageway prepared by the police and women tried to kiss the Assemblymen.

Assail Both Old Parties

Assail Both Old Parties

"The Republican and Democratic parties, vaguely conscious of their class interests, are dominated by definitely class-conscious politicians. The influences emanating from the Union League Club are the influences of Wall Street. The fiat has gone forth that no one holding the economic heresies held by the Socialists shall be permitted a seat in the governing body of New York State.

"The fusion of the old parties in the special election is a confession that there is no difference in principle between them, that the capitalist influences that control one control the other. In fusion the Everyblica

tween them, that the capitalist influences that control one control the other. In fusing, the Republicans and Democrats put the issue squarely fo the voters. The fusion was a tacit agreement to abide by the decision of the voters in the election, and yet when the election went against fusion and when the victorious Socialists sought to take their seats, the fusionists abandoned their tacit agreement and used force to accomplish the purpose they could not otherwise accomplish. And again, behind it all, the iron hand of the capitalist power is visible.

Socialist Principles Involved

Socialist Principles Involved
"The compromise reached at the eleventh hour to seat two and oust three was a desperate attempt to make the best of a desperate situation. The two who were seated stand for precisely the same principles as the three who were expelled. What the three ousted Socialists did the other two also did. A more absurd situation, a more inconsistent one, cannot be found in parliamentary history. Assemblymen Orr and De Witt promptly and very properly withdrew. They did so because they felt, and we indorse their sentiments, that if Waldman, Claesseps and Solomon were made to suffer for their principles they did not wish

We Never Shut Down

36-----

Live stock keeps coming to market and we have to keep buying it and putting it through our plants whether conditions are good or poor.

Swift & Company has no control over the quantity of live stock shipped to market. Live-stock producers ship their animals to the big stock-yards markets, wherethey are sold through commission men who represent the shippers.

The result is that the live-stock supply fluctuates from week to week. We have to buy the animals, however many or few there are; and they have to be handled without delay.

We cannot hold dressed beef, lamb, mutton, veal, fresh pork, or any other fresh perishable meats, but have to sell them at the prevailing market prices within a few days. If we try to sell at half a cent under the prevailing prices, retailers would naturally buy from us as long as our supply lasted, and that supply would be used up very quickly. On the other hand, if we try to sell for half a cent higher than the market prices, the retailers, who shop around, would buy from our competitors and we would have our fresh meat left on our hands. We have to sell our products every day at prevailing market prices whatever those prices may be.

Half a cent up or down in the wholesale price means the difference between profit and loss to us.
